Core Values

The PEARL ORGANISATION works together every day to improve the state of the world. Our culture is built on 8 core values that Unite us, Inspire us & Make us Uniquely-

We bring our spirit to life inside and outside our company by living our values of Trust, Growth, Innovation, Equality, Customer Success, Transparency, Wellness, and Fun.

These are the values that unite us, inspire us and make us uniquely Pearl Organisation.

i. Trust

Nothing is more important than the security and success of every member of our Company. We are trusted advisers to our customers and are serious about engaging intelligently with technology to keep their data secure. We build trust with our employees by motivating and aligning our people with opportunities for growth and success.

ii. Growth

We are the fastest-growing top IT company. We are empowered to expand our solutions, grow our employee base, increase our impact, and create enormous stakeholder value for everyone in our company. We work every day to drive our customers' success so that we can continue growing together.

iii. Innovation

Our passionate spirit of innovation binds us together and enables us to achieve extraordinary things. We encourage each other to challenge the status quo, push outside of our comfort zones, and pursue initiatives that have the potential to advance the way we do business. We work as a team to reach the future faster.

iv. Equality

We believe a diverse and inclusive workplace fosters innovation and creativity. Our goal is to ensure that Pearl Organisation is a place where all people can do their very best work individually and collectively. We are a better company, a better culture, a better city, a better country, and a better world when we embrace Equality for All.

v. Customer Success

Customer centric. Customer focused. Customer obsessed. At Pearl Organisation, we take great pride in helping our internal and external customers achieve great things, and they inspire us to constantly improve. Customers are the reason behind everything because at the end of the day, their success is our success.

vi. Transparency

We always communicate openly and honestly. We are empowered to voice ideas and opinions in order to drive change. Transparency comes alive on Chatter, executive meetings to all, and through our centralized process meets, which keep us aligned and accountable for delivering on the vision we set out for ourselves.

vii. Fun

We have the privilege of collaborating every day with talented, passionate teammates, and we genuinely enjoy each other's company. So when we achieve our goals, we celebrate ! We take our work seriously, but we try not to take ourselves too seriously. And no matter where our path takes us, we always try to enjoy the ride.

viii. Wellness

In order to move fast and achieve success for our customers and our company, we must first take care of ourselves and each other. We empower our employees to focus on their families, friends, passions, and Wellness. When our people are healthy and happy, they do

TECHNOLOGY:

Pearl Organisation is a global leader in creating the technologies at the heart of our connected world. Powered by the research and innovation of Pearl Technology Services, we serve business-transformation and internet professional services and products with the industry's most complete, end-to-end portfolio of businesses. we are shaping the future of technology to transform the experience. A truly global company, which is working for more than 20 companies.

• PEARL TECHNOLOGY

PEARL Technologies (TECH) is our advanced technology business. Formed in 2017, TECH builds upon our solid foundation of industry-leading licensing and technology R&D capabilities. By focusing on Digital Media and Digital Business Transformation, TECH is expanding the human & business possibilities of the ever-evolving world of technology.

We are determined to explore, discover and develop the ways in which technology can transform our lives. Whether taking steps towards a healthier life or sharing experiences like never before, we make our vision for a connected future your reality for today.

Our mission is to create effortless, beautiful and impactful technology products and solutions that move the world forward.

We call ourselves TECH and we're passionate thought leaders, innovators, mentors (Nokia & Wix) and visionaries, spread across the globe. We bring our diverse set of talent and experience to bear with a single goal in mind - to enable technologies designed to bring the human family closer together. Building upon our heritage as a globally admired leader in web, apps, software is only a part of this mission. We're pioneering virtual reality by creating technologies that enable immersive experiences that transcend borders and enable rich interactions that allow us to feel more together.

The Internet of Things (IoT) connect everything, everywhere and every moment to enable it to achieve greater value and service by exchanging data with the manufacturer, operator and other connected devices based on the network infrastructure.

We believe that when technology and life collide, you'll always find a great story... Our products have greater depth than just a front view, back view and side view. We believe our innovative products are the keys to unlocking, capturing and creating incredible new business experiences.

- **DEVELOPED BY ENGINEERS**

PEARL employs more than 20 engineers, which accounts for 50% of our workforce. PEARL engineers encounter and solve some of the most challenging internet scale problems that exist today. Our backend teams work on widespread data centers and a cloud-based microservices architecture, wielding Scala as their weapon of choice. At PEARL, client-side code is not just a gateway to functionality, it's a huge part of the system. Our FEDs design large systems, working in the latest frameworks such as ReactJS and AngularJS.

- **OWNED BY ENGINEERS**

PEARL engineers take responsibility, think end to end, and completely own the architecture of their features. We're big on Test-Driven Development, which encourages easy to read and refactor clean code standards. We employ a Continuous Delivery model, which gives engineers the autonomy to deploy their code to production. PEARL also offers a variety of tools that help engineers monitor their software after it's live—and rollback if needed.
